Special Educational Needs

At Belgrave St. Bartholomew's Academy every pupil shares the right to an exciting, broad and balanced curriculum. Every child is respected as an individual and we make every effort to give children the support they require in order to access the school curriculum and environment.

If your child has a special educational need or disability we will use the 'Assess, Plan, Do, Review' approach to supporting their needs. This will involve talking to you about your child's difficulties so we can understand their needs. We will make an assessment of your child's learning so we know which skills they need to learn next and working with the the inclusion team will support and advise teachers so that your child can learn in the best way for them. We access a range of programmes/interventions to help children who need extra support and we work closely with a range of outside agencies and professionals when further input is required including the Educational Psychology Service, SEND Services, Speech Therapy, Counselling and a range of health professionals. We monitor the progress made regularly, involving parents in this process at least once a term.

Belgrave St. Bartholomew's Academy is committed to safeguarding and promoting the welfare of children and young people and expects all staff and volunteers to share this commitment.

The school has a legal duty to work with other agencies in protecting children from harm and responding to abuse. The school regards this as an essential duty of care. Parents should be aware, therefore, that staff have a legal duty to report their concerns about a child who may be at risk of abuse or where there is a safeguarding or Child Protection concern to the Local Authority Safeguarding Team. Please note the Academy staff do not carry out investigations or make judgements.

Homework

Our school firmly believes that pupils should focus on the key skills when completing homework. These key skills underpin all areas of Maths and English and are fundamental in developing pupil's overall understanding of these two subjects. Therefore, compulsory weekly homework will at least comprise of weekly spellings, times tables/number work and reading at home with a parent or adult at least three times a week.

Reading

From their very earliest days in school, children will bring their reading books home to share with you. Please set aside a quiet time each evening to make this an enjoyable time together. You will be encouraged to complete an online planner for reading called 'Go Read', which will be shared and seen by your child's class teacher. You will receive further information regarding this, so please do not worry. It is extremely important that you read at home with your child, even from Nursery age, spending time at home, reading or discussing books and pictures with your child can have be very beneficial to their learning, future reading and understanding of different texts.

Communication and Class Dojo

Communication can take place easily between yourself and the class teacher, either in person, or via the online Class Dojo system. Again, you will receive further details about Class Dojo and how to use it. This can be used for communication between parents and the class teacher and can enable you as the parent to ask any questions or provide any messages that you may have. You will also receive important information or messages through Class Dojo about your child, class messages or even whole school notices, i.e. when it might be a non-uniform today, or if wellies may be required for the allotment. It can also be used to notify a teacher about a problem at home or a concern that might affect a child's attitude or mood at school e.g. a family bereavement etc.

Assessment and Reporting to Parents

In accordance with current legislation regarding assessment of pupils, our children are formally assessed at the end of Key Stage 1 (7 years old) and Key Stage 2 (11 years old) in English and maths. Writing is continually assessed through Teacher Assessments. Science is also assessed through Teacher Assessment, but schools will sometimes be selected to carry out a sample Science Test at the end of year 6.

Pupils complete summative assessments at the end of each term and these are used to support teachers ongoing formative assessments, whereby teachers monitor pupils progress during lessons and from the work they produce. This not only tracks pupils progress, but also informs next steps for teaching and learning.

Summative Assessments are presented to parents in a written report towards the end of the school year. Parents evenings are held in each term to discuss progress and any concerns parents may have. Parents are welcome to make an appointment to discuss their child's progress at any time by mutual agreement.

Belgrave St. Bartholomew's Academy

School Visits Charging Policy

In accordance with the 1988 Education Reform Act the Governors have produced a policy statement on charging for educational visits. The main points state that for certain types of educational activities during the school day (e.g. class visits, residential visits, workshops, outings etc.) parents may be asked for a voluntary contribution towards the projected cost. However, no child will be placed at a disadvantage because of a parent's inability or unwillingness to pay. If however, as a direct consequence of a number of parents not paying, the total cost of the visit / trip is not met, then the event may be cancelled and all monies would be returned.

The school quite naturally, looks to the continued **support of parents in this matter**, thus enabling worthwhile visits and activities to continue.

A copy of the Charging and Remission Policy is available on request and will be provided free of charge, in line with guidance from the General Data Protection Regulation 2018.
